EDUCATION

Brigham Young University, Provo, UT

Bachelor of Science in Computer Science, April 2026

Relevant Coursework: Data Structures, Algorithms, **Software Engineering**, Systems Programming, Computer Security, Web Development, Artificial Intelligence

TECHNICAL SKILLS

Languages: Java, **Python**, C++, JavaScript, Dart, C, COBOL

Frameworks: Flutter, Node.js, SQL, **Docker**, Kubernetes, AWS

Platforms: **GitHub**, GitLab, Supabase, Vercel, GitHub Pages

Core Competencies: **Full-Stack Development**, Secure Coding, APIs, **Automated Testing**, Software Design

EXPERIENCE

Software Developer – Bake Heating & Cooling, Payette, ID | Jan 2026 – May 2026

- Designed and deployed a secure production website serving **hundreds** of active users
- Applied **threat modeling** and penetration testing to reduce application risk
- Worked directly with business owners to determine final functionality and features.

Software Developer — Brigham Young University, Provo, UT | Nov 2022 – Jan 2025

- Led code reviews, pull requests, and **weekly** Git-based version control workflows across team projects
- Designed and maintained Python software integrated with custom hardware supporting **400+** computer chips in academic research environments
- Designed and implemented automated test suites, identifying and **resolving 100+** defects to improve system reliability

QA Software Engineer — Brigham Young University, Provo, UT | Mar 2026 – Apr 2026

- Audited and refactored legacy codebases to improve **performance**, security, and maintainability
 - Managed repositories across **GitHub** and GitLab, enforcing secure version control practices
 - Implemented new tests with more than **80% coverage** of code
-

PROJECTS

I-Haul Mobile Application | Software Engineer

- Developed backend services using Supabase and Vercel to securely manage user data, and front end with TypeScript.

Budgeting Application | Software Engineer

- Developed a cross-platform application using Flutter and Dart, delivered full functionality within three months.
-

CERTIFICATIONS & HONORS

Cybersecurity Foundations: Application Security

Software Development Lifecycle Certification

Dean's List, Brigham Young University
